SPECIAL CONDITIONS INTERPRETIVE SERVICE

1. Authorized Use

Interpretive Service This commercial service is defined as natural or cultural resource information provided by a designated leader to a specified group of people. At a minimum Zion requires all permittees to communicate the resource protection messages identified in Special Condition 7 to every group as part of the interpretive service. Each group leader must complete and pass the quiz for commercial interpretive services. Permittees may expand on the information provided to the group to enhance their understanding and enjoyment of the park.

Level 2 groups consist of 16 to 50 people, including group leaders. Level 3 groups consist of no more than 15 people, including group leaders.

Groups may travel on foot up to 100 feet off of designated trails, using existing disturbances or staying on hardened surfaces.

Unauthorized Use

Public Use Obstruction Permitted groups are sharing visitor facilities with the general public. This permit does not convey any priority use of trails. Permittees should advise clients to stay on trails, walk single file, and allow the public to pass. The use of tripods on trails is prohibited by permittees or clients. Monopods are allowed.

Designated Trails Level 2 and Level 3 permits authorize businesses to lead a group on one of the specifically designated trails. Group size determines the trails permitted for interpretive service. The group leader may lead permitted groups on any or all trails designated by their permit.

No portion of a Level 2 group may hike on a Level 3-only trail with a guide. Dividing the group or encouraging the group to split up into smaller units to hike trails other than those designated on the permit is considered an abuse of the permit privilege and grounds for revocation.

River Tubing Shuttle Service River tubing is prohibited in the park.

2. **Operational Requirements** The driver of the vehicle shall be responsible for complying with the requirements of this permit, and ensuring that all passengers are familiar with the safety notice (see Special Condition #10). In addition, the driver shall be familiar with which park activities require a permit and that each passenger has the proper permit for those activities to which the passenger is being transported.

Gear may be tied to the top of the vehicle, carried inside of the vehicle, or transported in a trailer, but shall not be attached to the sides of the vehicle.

There shall be no interference with pedestrians or other traffic in the park.

Group leaders must register their group and identify which trail they will be walking at the Entrance Station on the day of the trip, using the preprinted form. (See Attachment E).
